Cumbernauld

Cumbernauld was created as one of Scotland's new towns in 1956. It occupies a very strategic location within central Scotland and is afforded excellent communication links via the M80, but is also close to the M73, M74, M8/9, M876.

The North Lanarkshire area has a population of 324,000 people with over 50% of the Scottish population within a 1 hour drive.

Cumbernauld has benefited from £45 million inward investment recently with the completion of the Antonine Shopping Centre within the town centre and Westway Retail Park completed in 2007, adjacent to Arches Business Park.
